Lake Oroville Storage
October 1, 2014 to December 31, 2015

Capacity = 3.54 maf

Storage in Millions of Acre-feet

— Actual storage
— Flood regulation rules storage
- - - Flood regulation rules storage boundaries

When the actual storage (blue line) is greater than the flood regulation rules storage (red line), Lake Oroville is temporarily "encroached" and is providing intended flood protection by buffering the effects of heavy runoff from the Feather River basin. During encroachment, Oroville releases are governed by U.S. Army Corps of Engineers rules.
